

FOR IMMEDIATE RELEASE

**Dr. Rubul Mout Appointed to *Frontiers in Energy Research* Editorial Board**

**SEATTLE, Wash.**, December 5, 2018—The Center for the Science of Synthesis Across Scales (CSSAS) is pleased to announce that one of its postdoctoral research associates, Dr. Rubul Mout, has been appointed to the *Frontiers in Energy Research* Editorial Board.

Released quarterly, *Frontiers in Energy Research* features articles on the scientific achievements taking place within the Department of Energy's forty-six Energy Frontier Research Centers (EFRC) in the U.S. CSSAS was established as an EFRC in August 2018.

Mout is a Washington Research Foundation Innovation Fellow at the University of Washington's Institute for Protein Design. Under the guidance of Professor David Baker, Mout's research focuses on making new proteins and protein machines for applications in cell signaling, optogenetics, and bioelectronics. He holds a Ph.D. from the University of Massachusetts Amherst.

Mout will serve on the Editorial Board through Spring 2019.
